

# 聖闘士星矢

NETERAARU  
SMALL VICTORIES

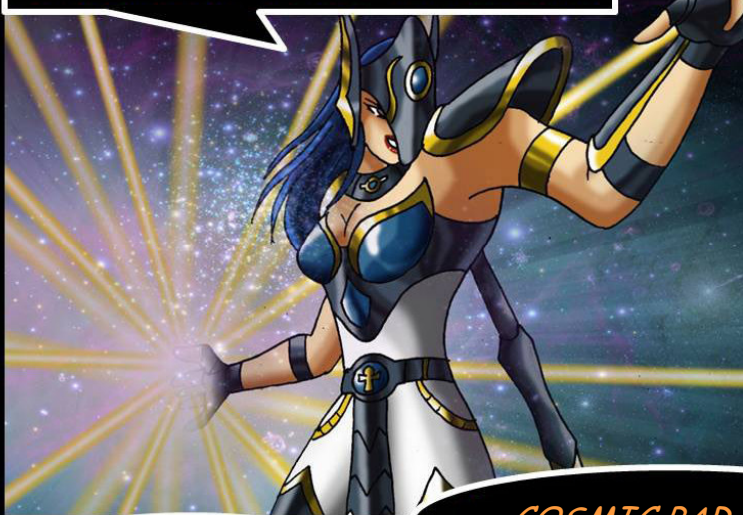

All we can do is to keep confidence in justice and believe in a better world. I know it's hard sometimes and that doubt assails us in hard times, but if we lose faith, it'll stay nothing. I believe in the justness of our cause and I know that our battles are not useless. And if we had to quit now, the hope of victory would disappear forever.

Who will be the first of you to taste my poison ?

*HUNDRED STINGS !!*

*LIGHT LINES !!*

*COSMIC PARADE !!*

*DESTRUCTIVE CIRCLE !!*

One of ours  
for three  
Athenians, it  
seems fair to  
me !

You'll see how fair are my fists !

Eh boy ! Remember that your  
fight is with me !

*NILE SWIRL !!*

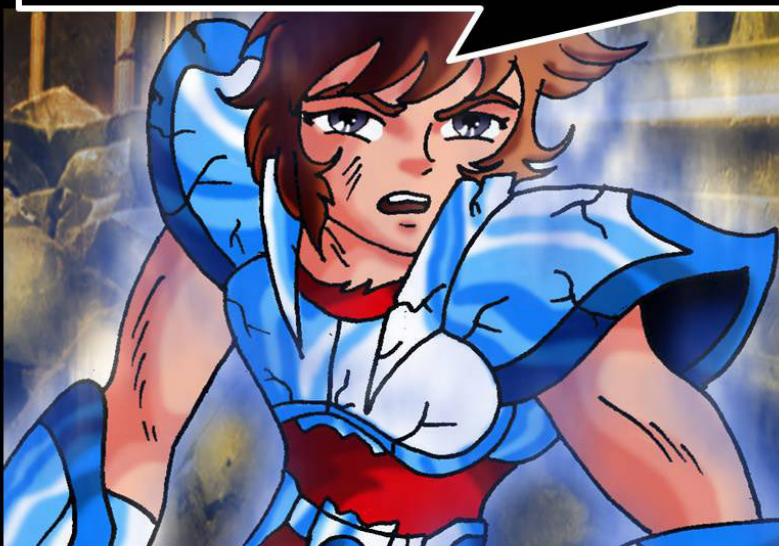

I expected more resistance in this place, the terrible saints of Athena are more a myth than anything else !

*GALAXIAN EXPLOSION !!*

Argh... so... so if you want to see what are the power limits of a saint, I'll show you the most powerful technical of my master, Saga.

Argh !... Damnit, I don't understand how I could be defeated by this.... Argh !

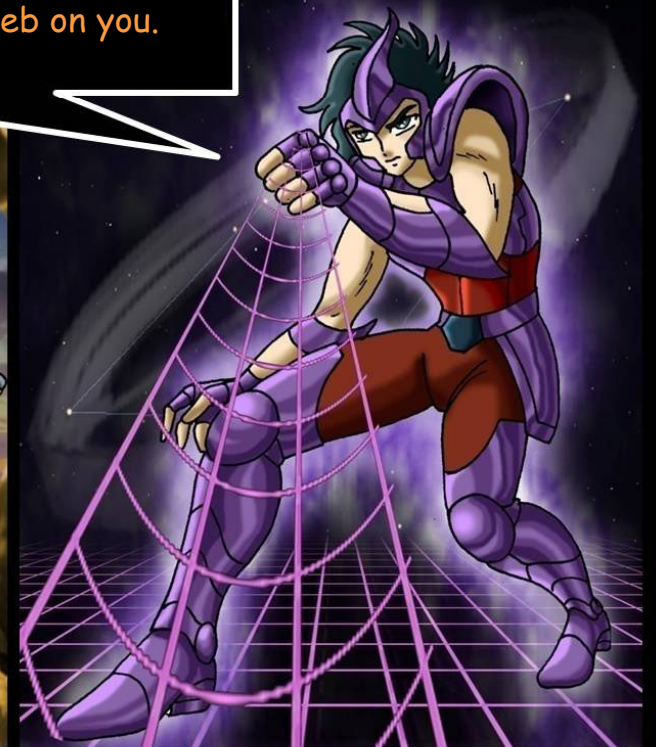

I defeated you because I have never underestimated my enemy.

Get rid of them !

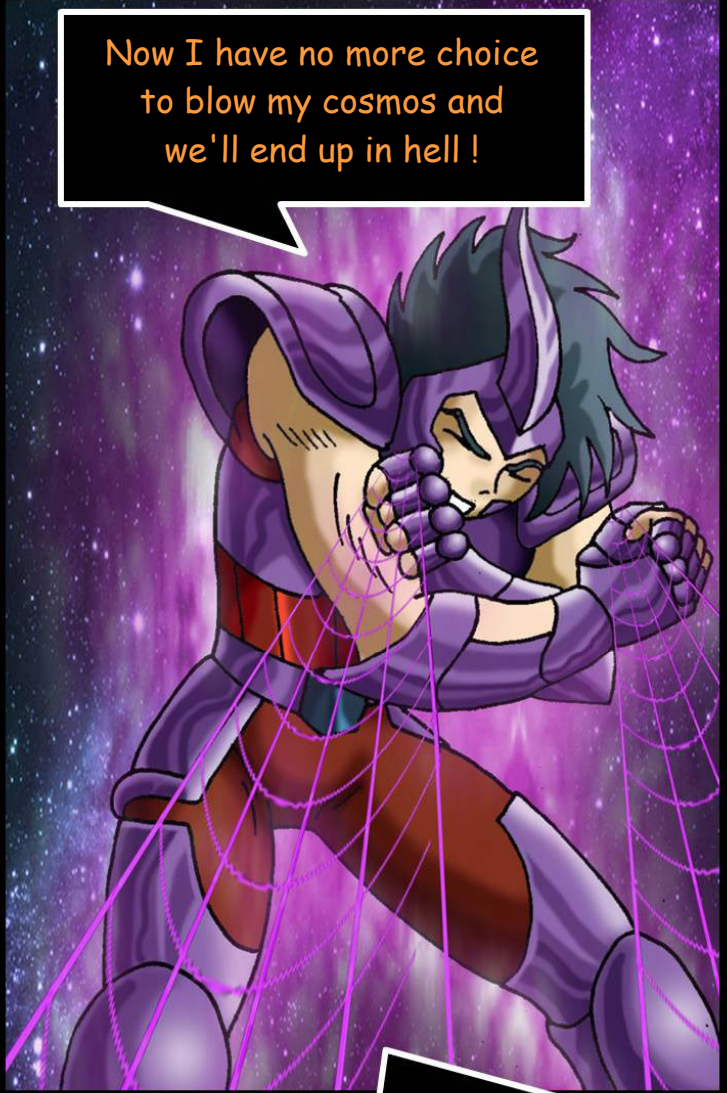

I suggest you not make a step further. While my companions were attacking you, I could extend my cosmic web on you.

Now I have no more choice to blow my cosmos and we'll end up in hell!

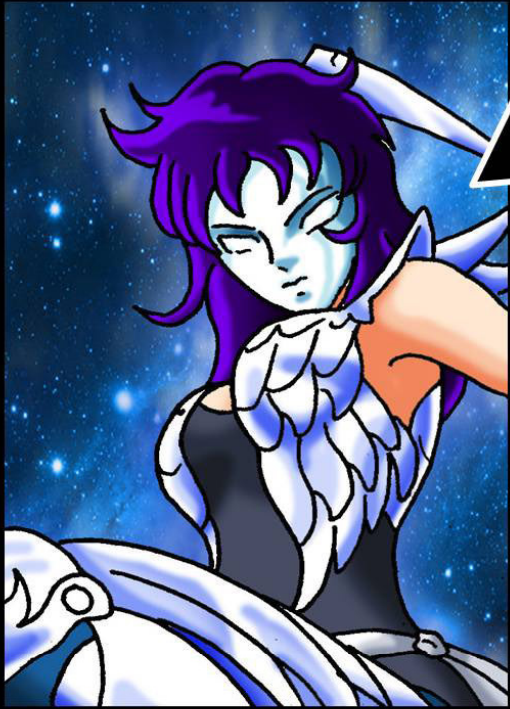

Athena, I'm sorry, but I have not found another way to protect this Sanctuary!

We're going to end with those once and for all!

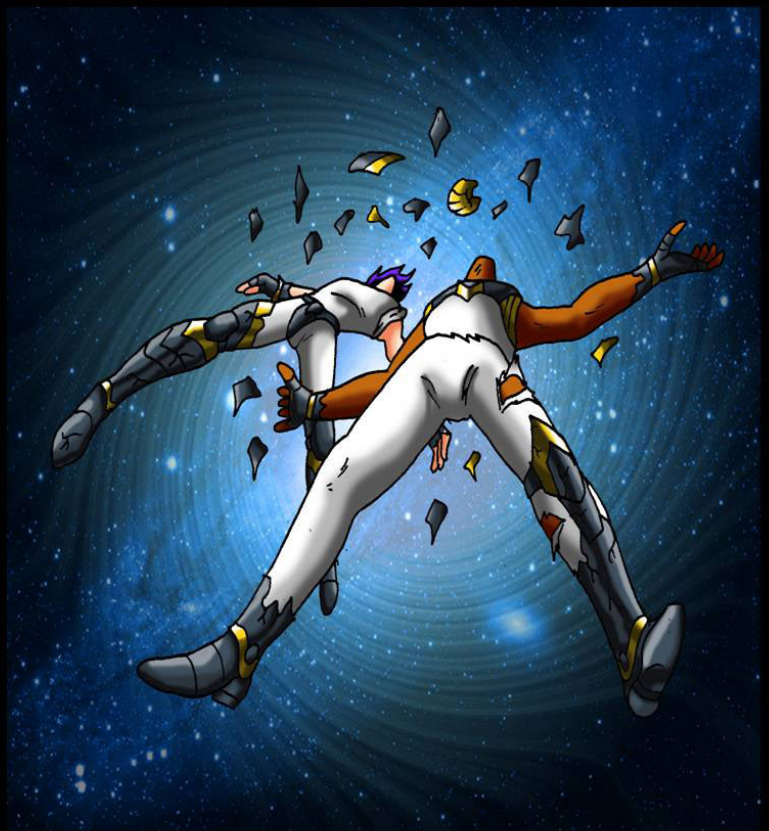

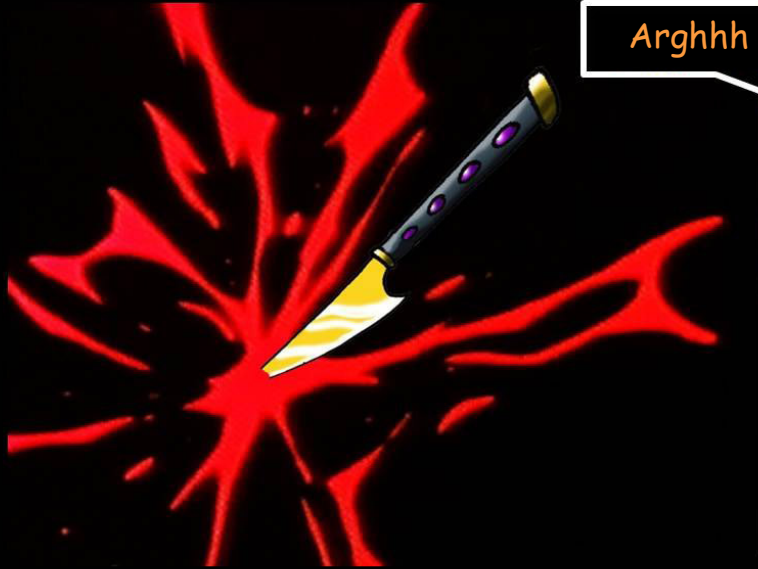

I don't think you're in position to finish anything!

FLASHER DANCE !!

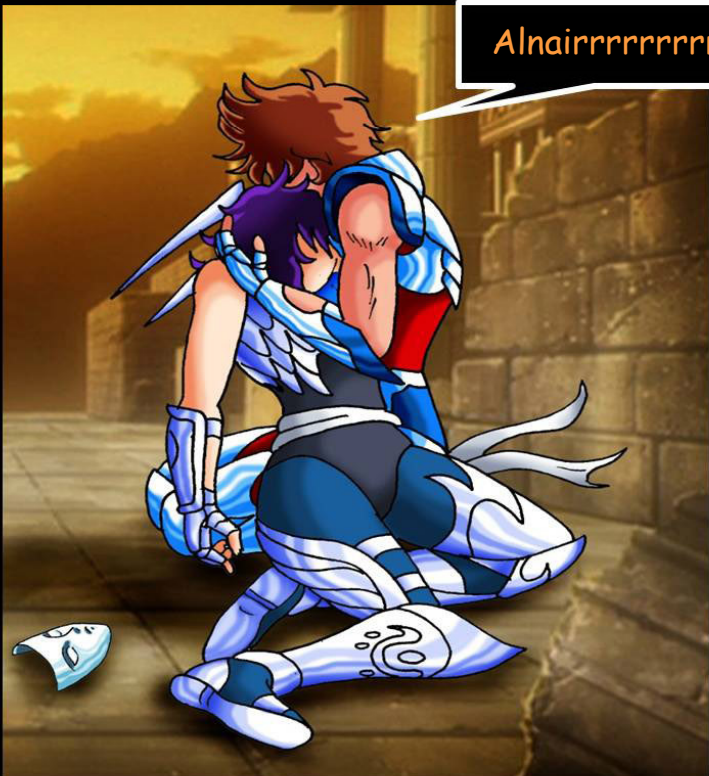

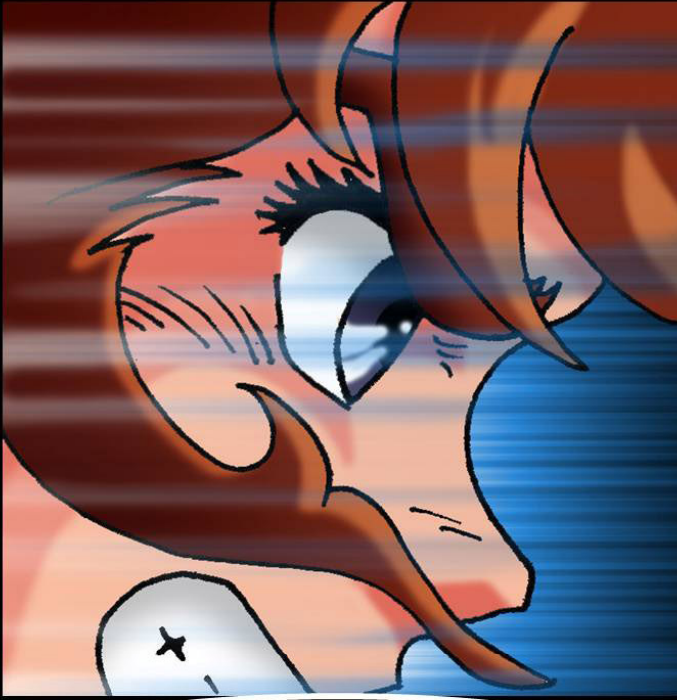

Arghhh!

Alhairrrrrrrrr...

EXPLOSION OF THE THREE STARS !!

CUTTING LEAF RAIN !!

Valhalla Palace, Asgard.

You should never leave oneself a way out !

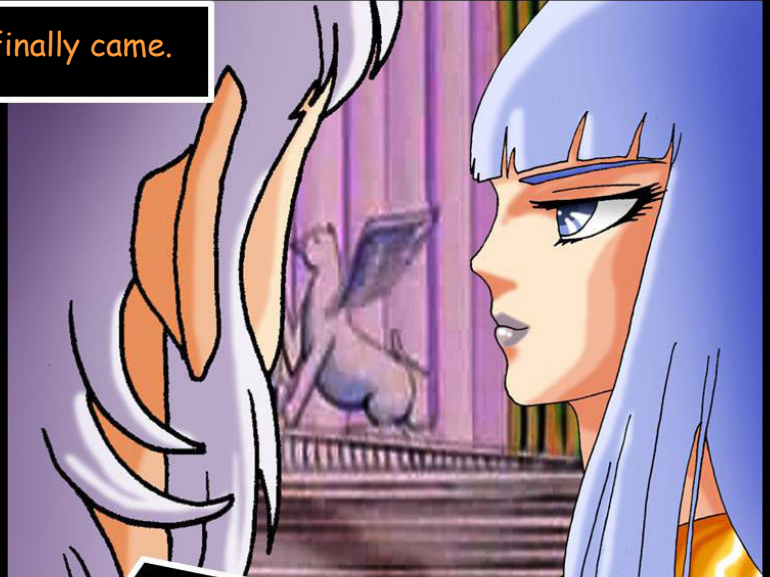

*I think you should follow his advice !*

Alexei, you're finally came.

Miss Hilda, I'm sorry for the delay.

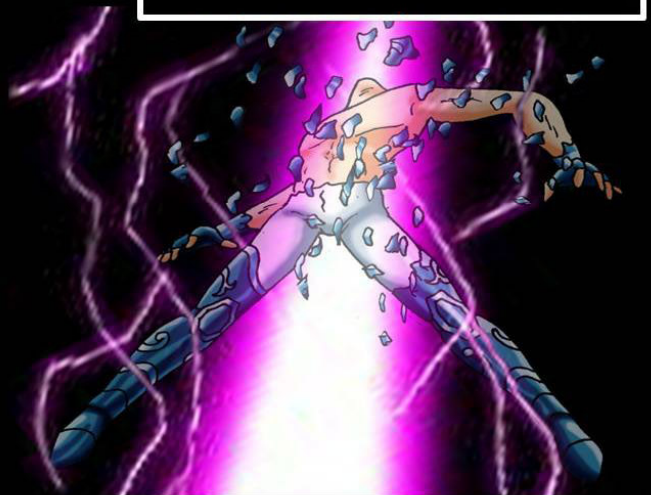

But the Bud's proposal to join your forces took me by surprise.

This is not the only thing you will not see coming !

PHARAON CROWN !!

Lord Odin, give me strength to protect those sacred lands of the evil that assails them once more.

Don't worry Flamme, everything is finished.

Cape Sounion, Greece.

Those two are much better candidates for my statues!

When you'll die, try to strike a pose less terrifying than your companion!

DEAD END SYMPHONY !!

Sorrento, you ruined my work !

I'm sorry Thetis, I could not resist.

Octopus!

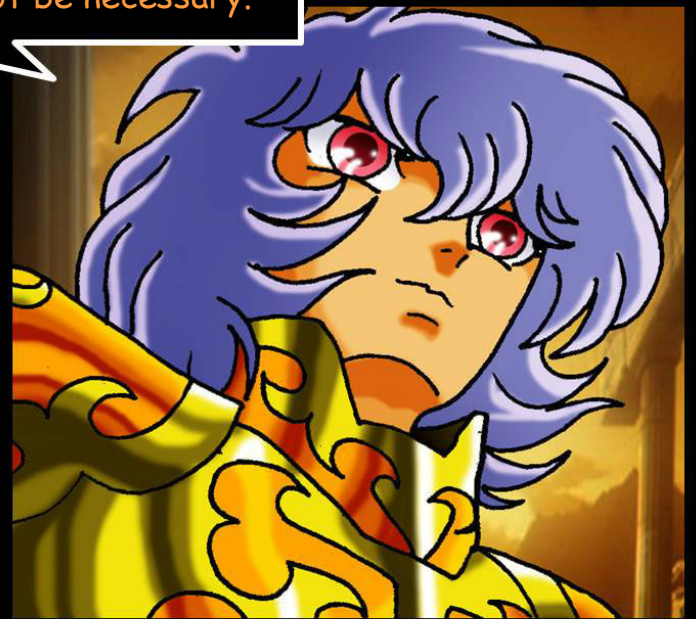

Octopus Briticus,  
reporting...

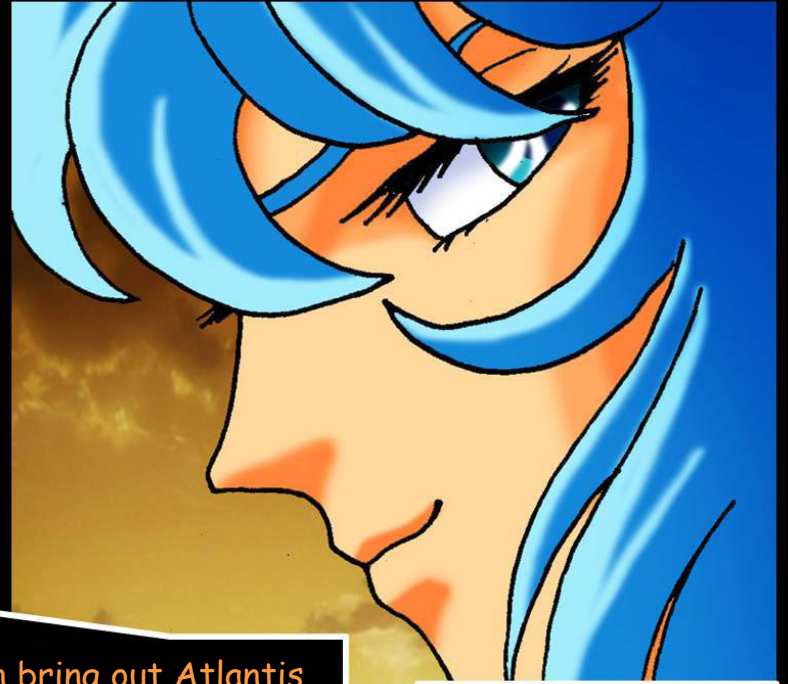

My lord, we have restored the Main Blade  
Winner but we need you to activate  
the barrier that will support the seas  
beyond your sanctuary.

It will not be necessary.

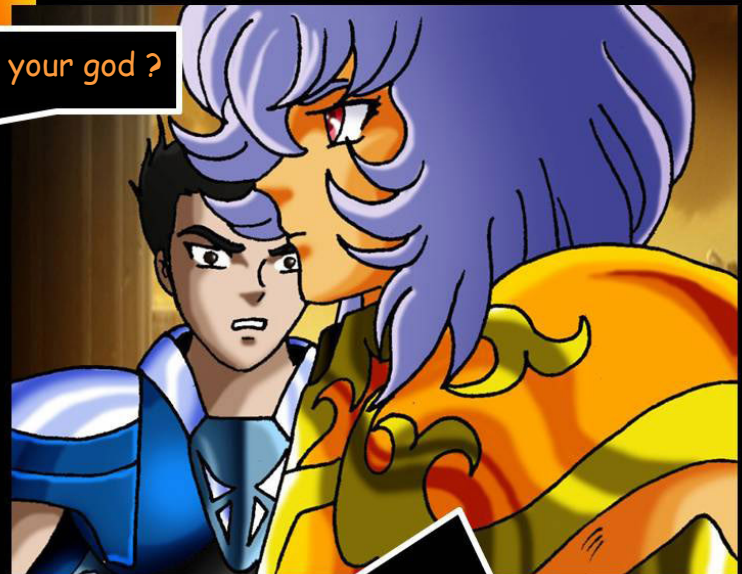

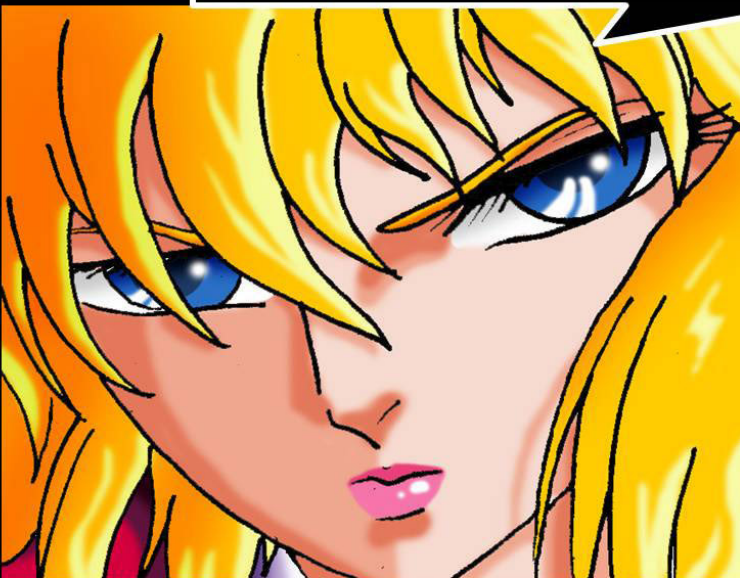

Without Athena to get in our way, we can bring out Atlantis and take the control of her lands.

Emerge ? But... is it possible ?

Have you a doubt about the power of your god ?

Briteus, I advise you to shut up... Thetis is in no mood.

Temple of Abu Simbel.

But... what happened here ?

Master !

They attacked the temple by surprise, I couldn't contain all of them, I'm sorry Apodis.

Master Mensae, perhaps you...

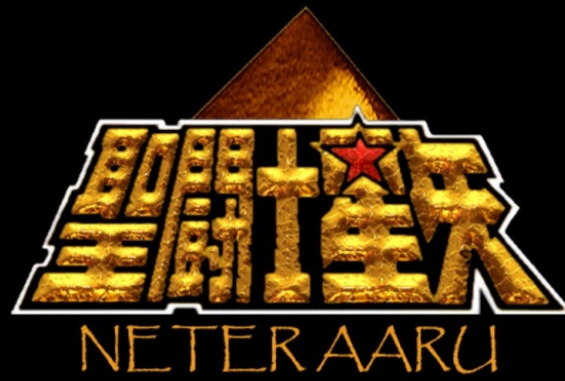

Master, I promise you I will finish what you started !

Why are you promising anything that you can't fulfill?
