

NETER AARU

REUNION

I don't admit to be defeated yet. We are the holy saints of Athena, this is our duty and the reason of all our fights. Raising its cosmos to infinity and reach the seventh sense is possible only for someone who has enough strength and hope to fight until the end. We can't save Athena if we forget this and no matter that our bodies could be destroyed, our cosmos is immortal.

And Brigitte ?

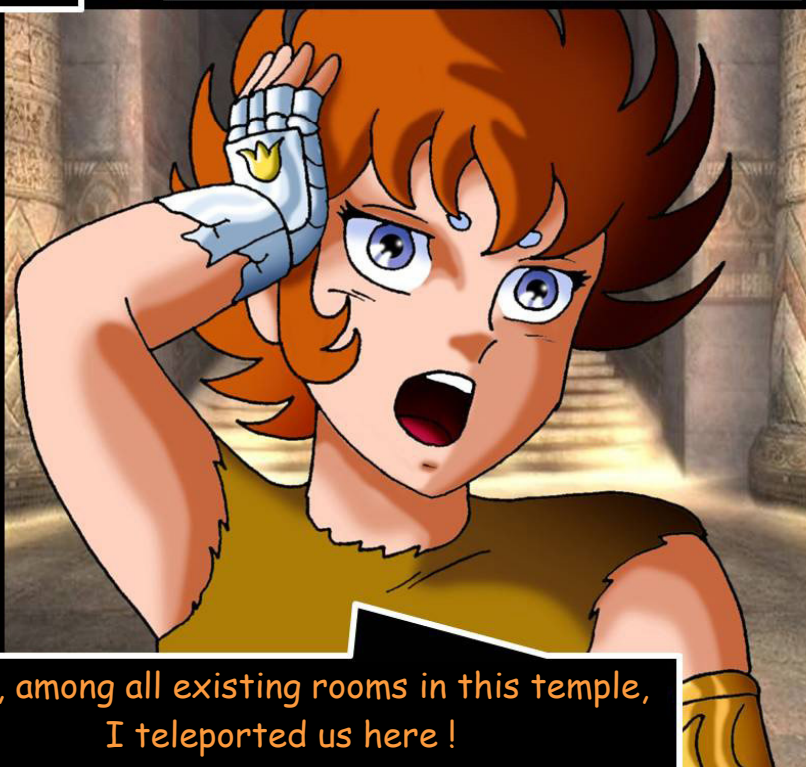

She sacrificed her life for the world and Athena, and now we must go forward as we promised.

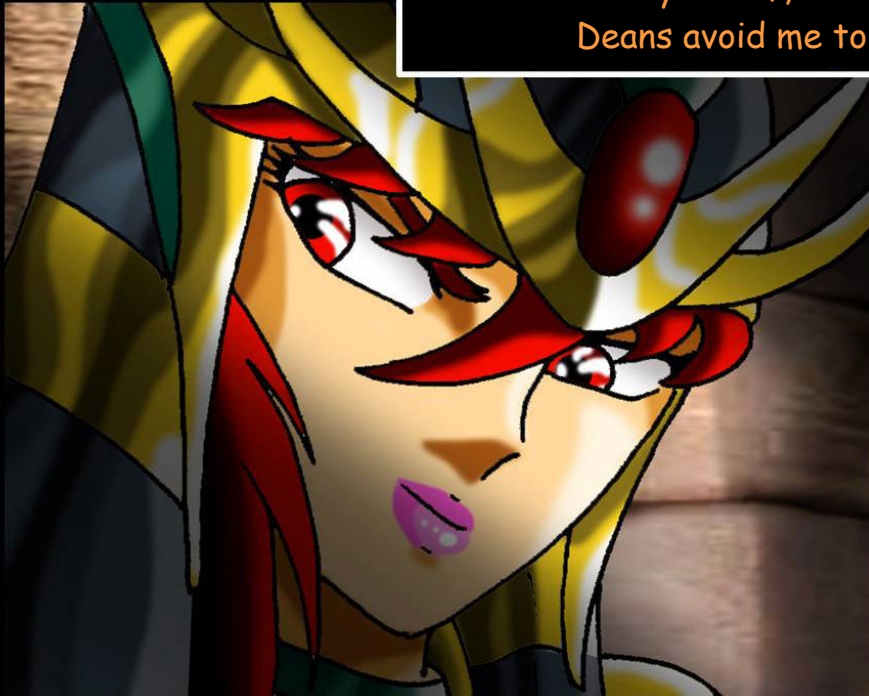

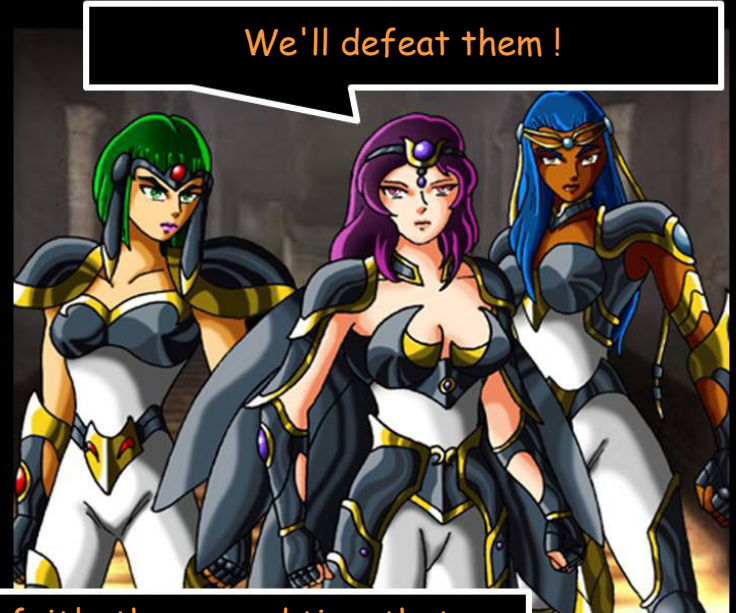

June, someone very powerful is approaching with a high speed.

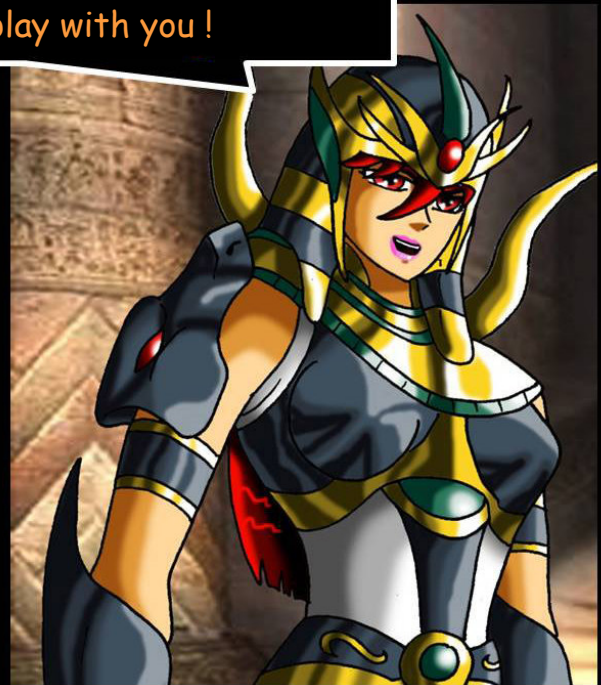

Midget, I can't believe you're still alive !

Ouch, among all existing rooms in this temple, I teleported us here !

Undoubtedly dwarf, it's the second time that
Deans avoid me to play with you !

Kiki, June, I will take charge of them !

GODS CIRCLE !!

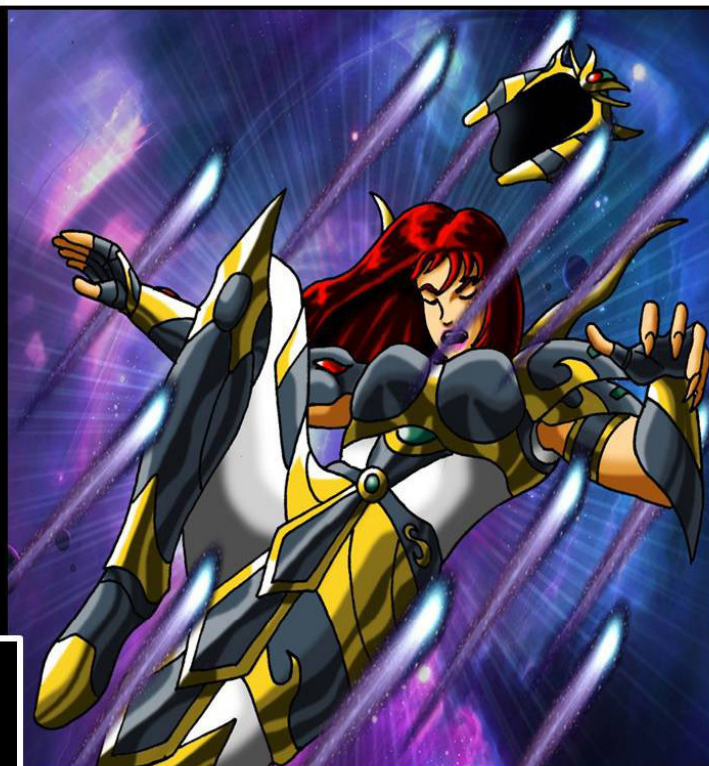

After having come so far,
you'll not stop me !

RYU SEI KEN !!

How is it possible this insolent escaped to
my attack ? Nobody... nobody was able to stop
my technique previously.

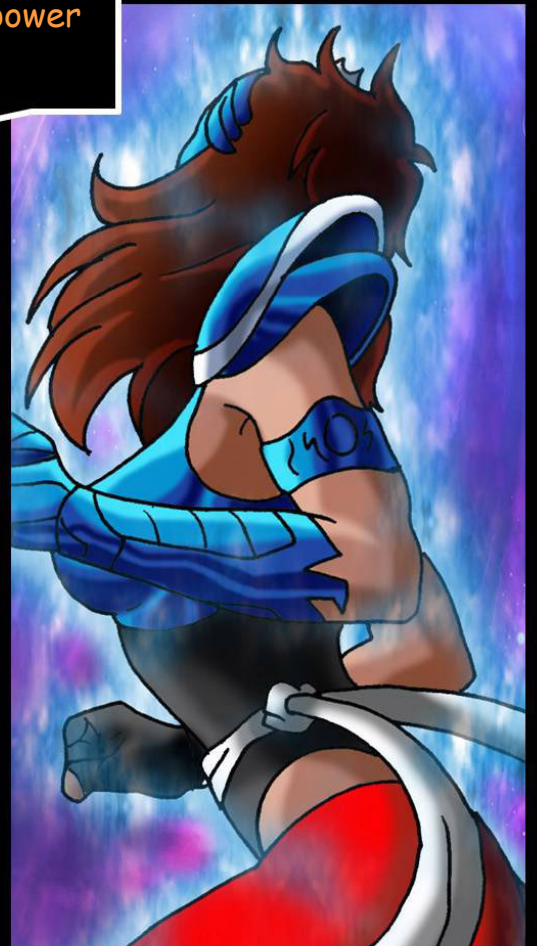

No opponent was able to reach me before, you'll pay a very high price for such impudence !

I'll show you the true power of Neter !

Shina sacrificed herself to let me reach this place... I can't disappoint her now.

The same technique doesn't
work twice !

EAGLE FLASH !!

I must admit you're a worthy opponent,
but I can't continue to play with you...
The time has come to exterminate you !

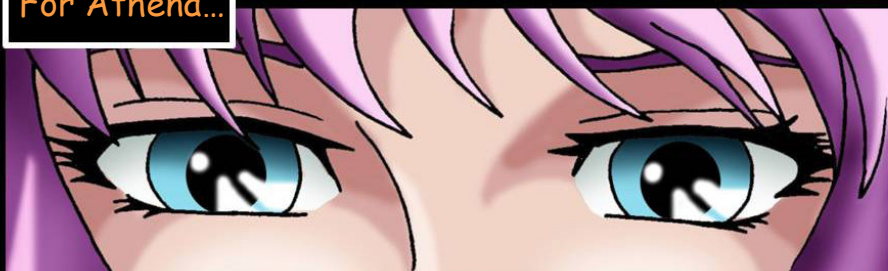

For Seiya...

For my brother...

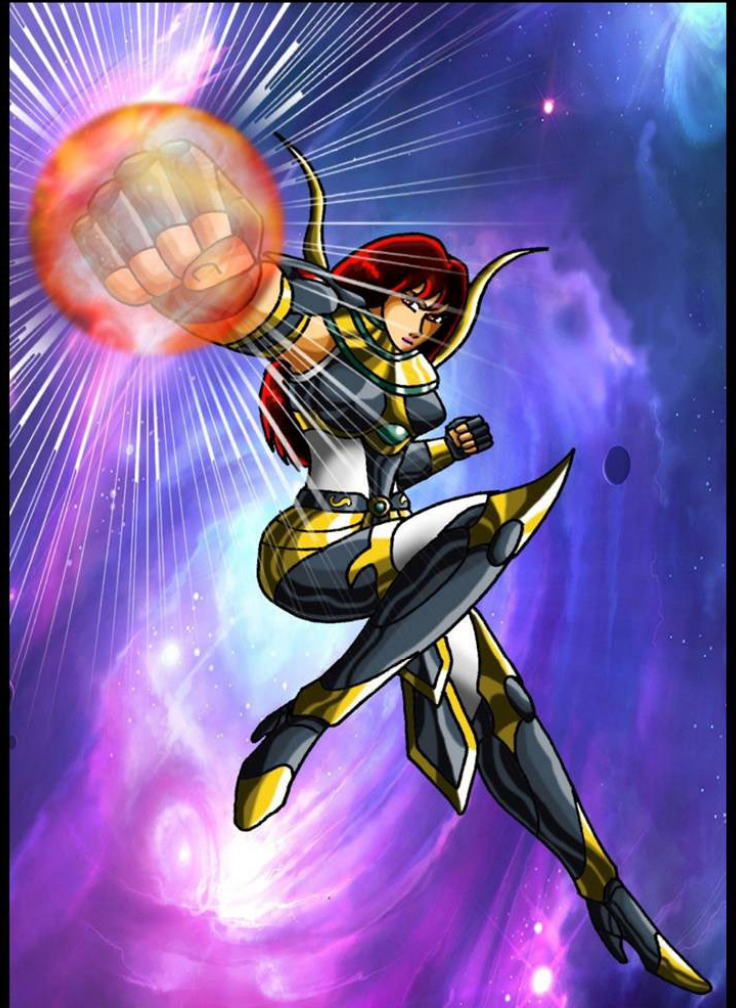

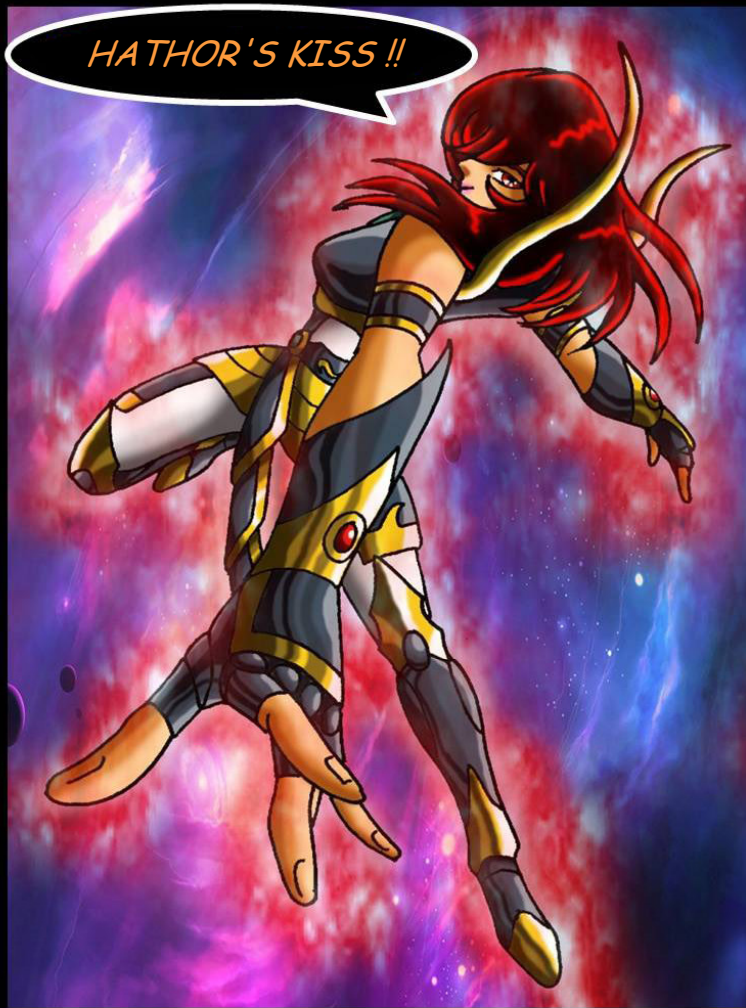

For Athena...

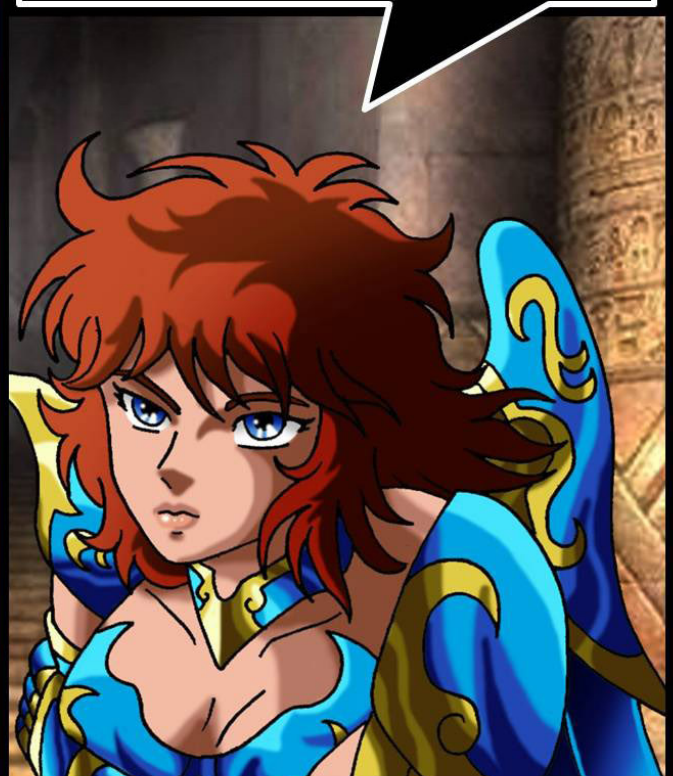

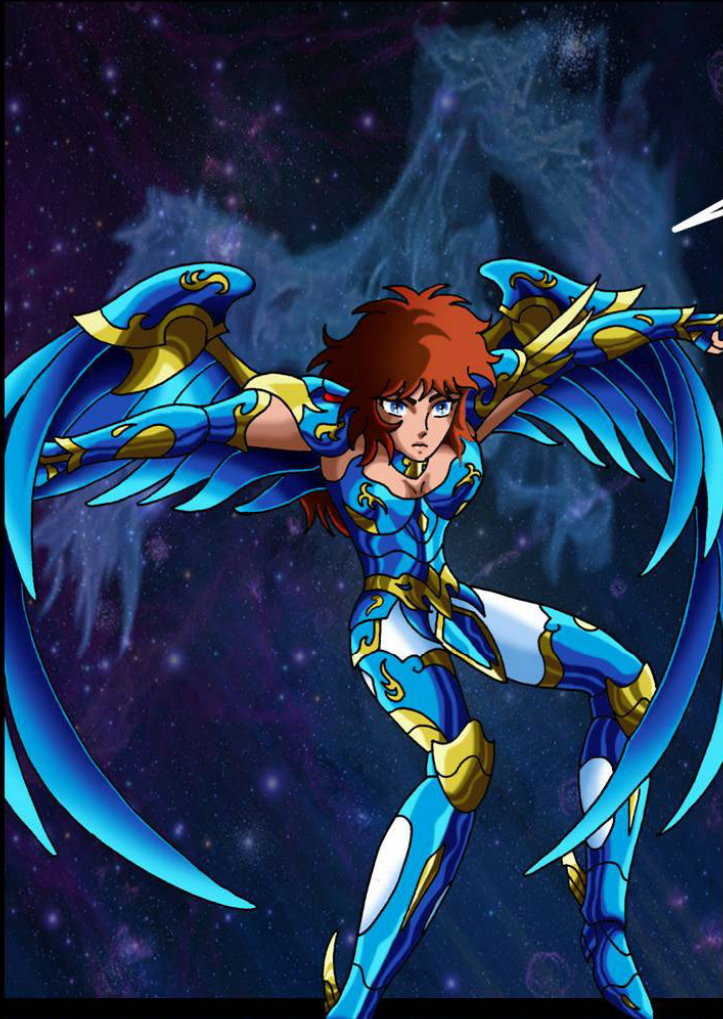

I will not give up, not now !

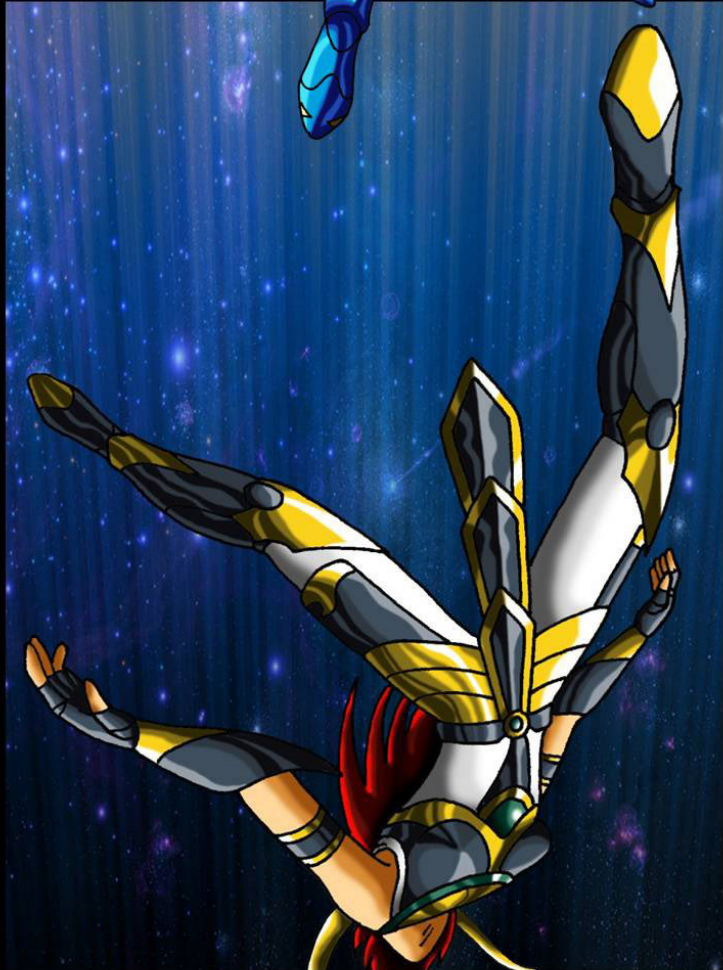

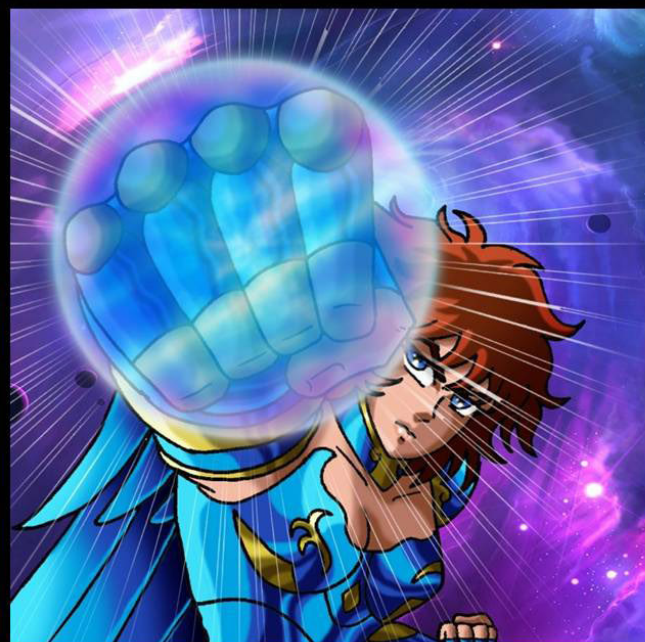

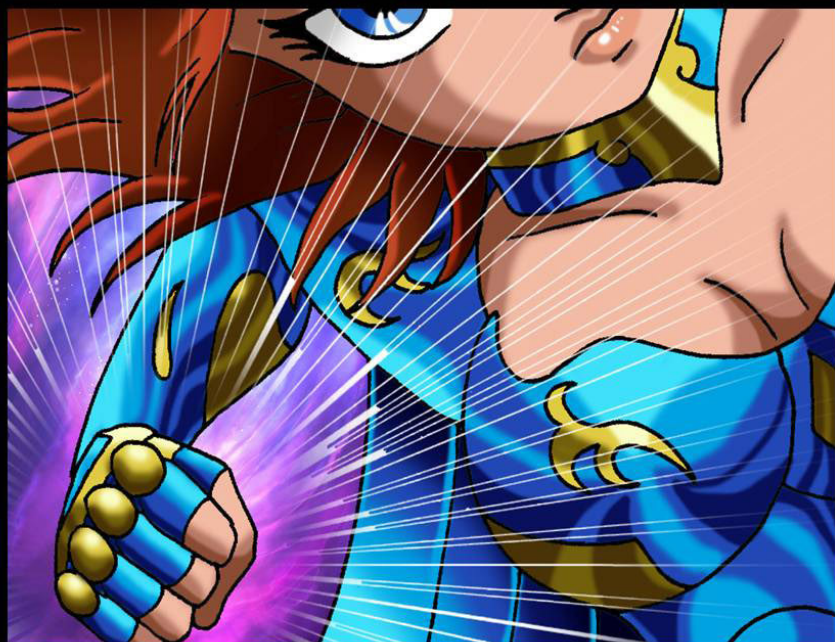

Thanks to Athena's blood, now
I have a second chance to defeat
you !

SHINING EAGLE !!

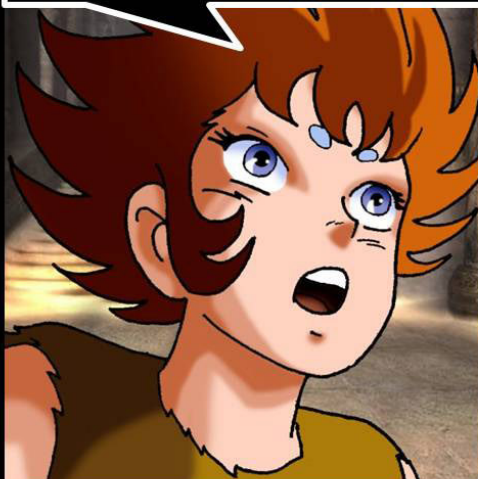

Wowwww, I wasn't expecting that ! By reaching the seventh sense, the eagle cloth has evolved !

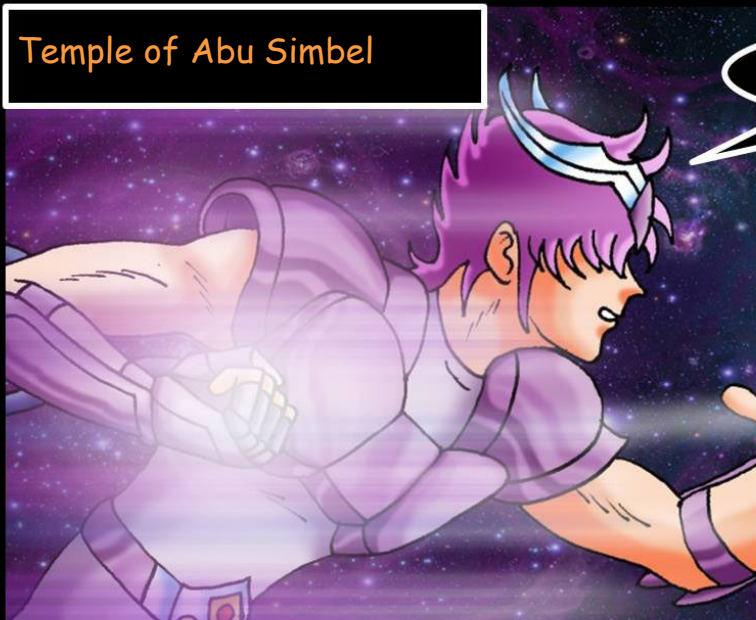

There is no time to lose Kiki, we must go in the next room where is the goddess Isis.

What ?? Daphne, you too you...

Temple of Abu Simbel

STELLAR BLIZZARD !!!

DEADLY MURMUR !!

Your attack was not more than a breeze on my face !

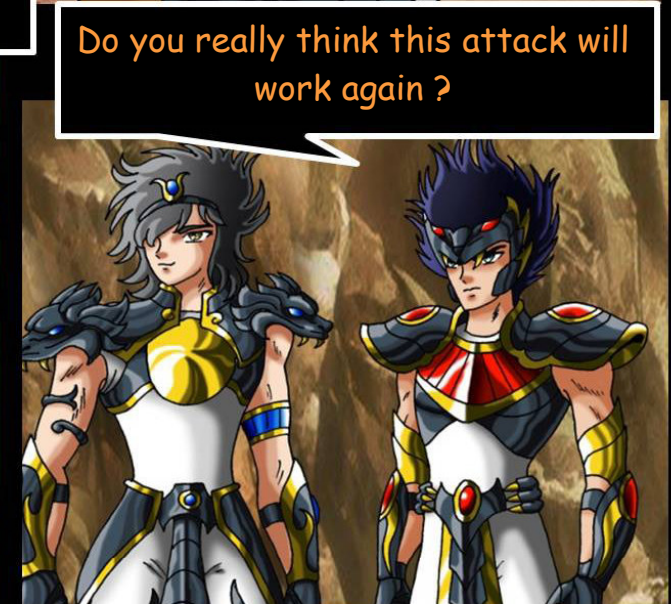

But
what's....

Argh !!

You didn't take my attack
seriously... Although this
hit is slow, it's not
possible to survive it.

Do you really think this attack will
work again ?

Wait !

Listen, go
away as quick
as possible.

But Master, you are
seriously wounded...

I know... and that's why
I want you to quit.

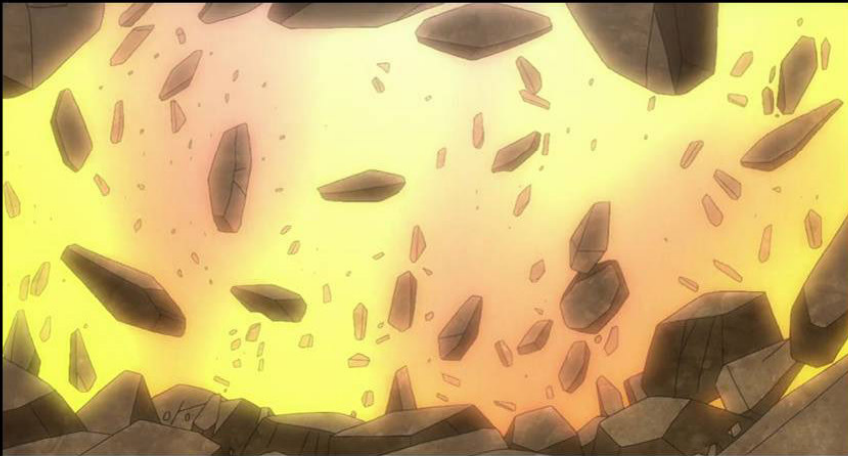

I'll not survive to this
battle but I'll not leave
alone.

MAGMA EXPLOSION !!

Ruins of Abydos

Master, your sacrifice will not be useless.

I spent all this day looking for an exit to this place. I think I'm lost...

Until we find you Ichi !

Besides, it seems that we are not the only ones to have found you...

I think to know who owns this cosmos...

It's time for us to start the attack
against the Egyptian gods !

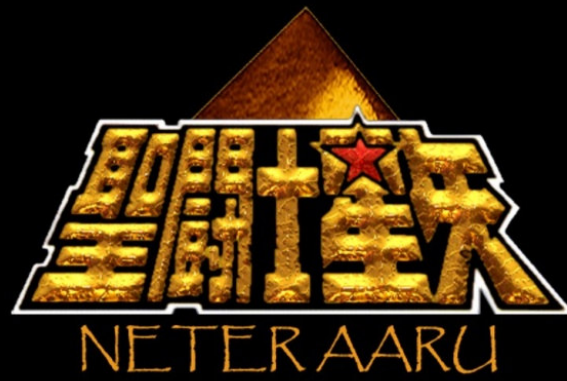

Shi... Shina !

We are ready to fulfill
our destiny !
