After the death of the god of the underworld Hades, the other gods realized that mortals were a real threat and decided to retaliate against the Earth.

In this fierce battle in the underworld, Seiya and gold saints have sacrificed their lives to help their goddess to defeat Hades.

After this embittered end, they returned to Earth and buried the body of Seiya. Few years later, the Sanctuary is preparing to defend the planet against any new threat.

In order to create a new army, Athena chose new gold saints. Ikki merited to wear the Leo cloth, Shun became the new Virgo saint, Hyoga became Aquarius, Shiryu as Libra and new gold saints were also designated : Zeghel (Gemini), Marcus (Cancer), Lysander (Scorpio), Neos (Aries), Kazuma (Sagittarius), Arcadio (Taurus) and Liceo (Capricorn).

But while Athena and her saints restored the Sanctuary...
in the dimension of fire, the seal put by Athena and
retaining captive Helios was losing of its control, consumed
by flames and the cosmo of the terrible god. At that
moment, a new threat was moving towards the Earth...

Ok Shun, I'll speak with the Grand Pope and we will release bronze cloths.

What a perturbing situation, I hope everything goes well... for the future of this world.

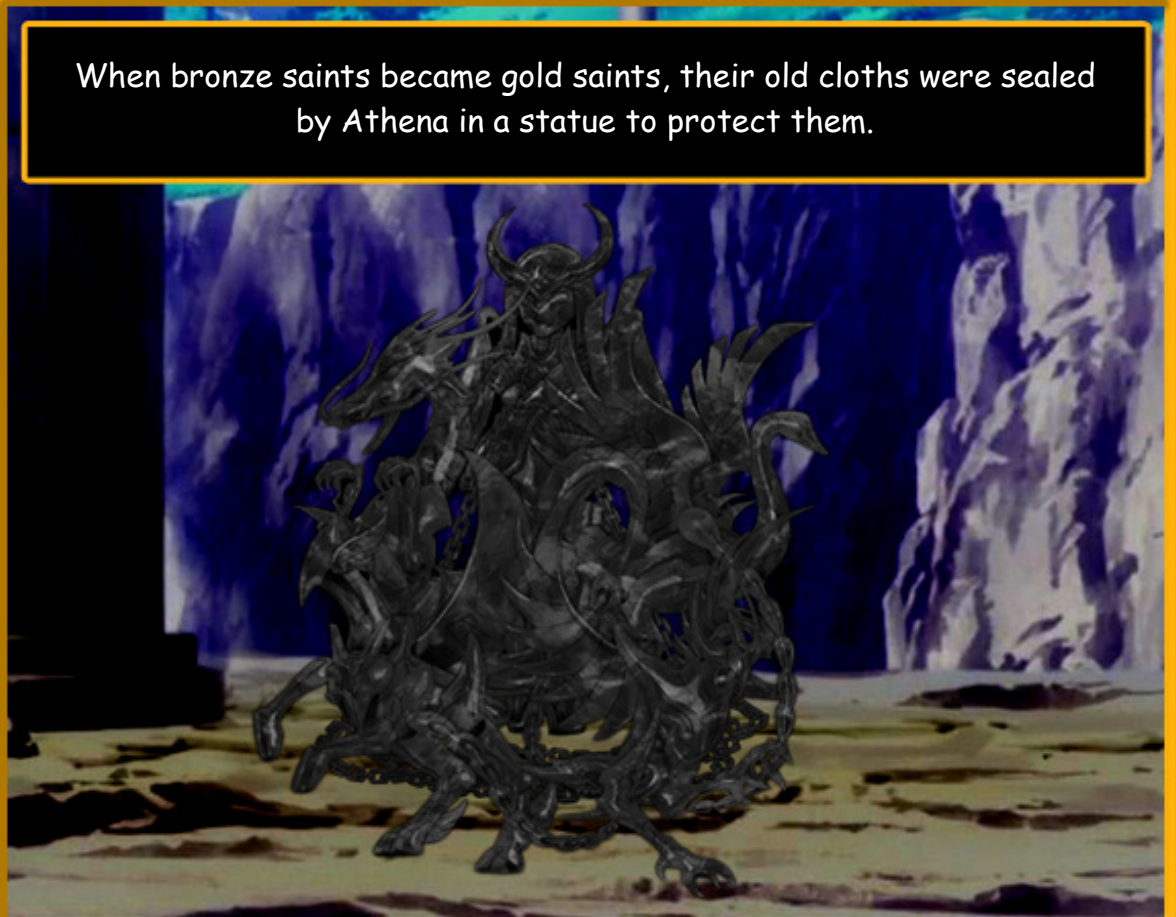

Grand Pope, I decided to release the power of bronze cloths to let them to choose their worthy bearer.

These cloths went through many battles, they are dead and then back to life. I'm sure they will find young people worthy to wear them.

Athena, are you sure of your decision ? It could be dangerous, saints must sacrifice themselves to permit them to live again.
